

DELO PRODUCT REFERENCE GUIDE

Delo is committed to keeping vital engine parts and equipment operating efficiently. We understand the importance of selecting the right lubrication product, that's why we've developed a Delo Product Reference Guide for Off-Road OEM Specifications to help make your job easier.

This quick reference guide is a "go to" resource to help you easily and quickly navigate the various OEM products by lubricant category matching the equivalent or recommended Delo products for each. Now, finding the right Delo product for your vehicle or equipment just become simpler.

When it comes to Delo you can count on Chevron's industry experience, technology leadership and the Delo family of premium products to help you and your business go further.

Delo. Let's go further.

Chevron recommendations are exactly that, recommendations, and are not an expression of equivalency or specification compliance.

EASY TO USE INTERACTIVE PRODUCT REFERENCE GUIDE

STEP 1 Click on the OEM logo on the right to select the OEM you would like to reference.

JOHN DEERE

VOLVO

STEP 2 Once on the OEM Delo Product Recommendation Category Page use the icons to select the product type you require.

CASE | NEW HOLLAND

CAT

STEP 3 Use the Product Reference Guide to find the OEM product name and the associated or comparable recommended Delo product.
